January 31, 2020

Dear District Member:

This letter is to notify you of the 2020 Water Rates. At the District's Rate Hearing held on January 13, 2020, it was determined that the District would keep the 2020 Water Rates the same as the 2019 Water Rates. The Non-Connected Service Fee will remain the same, as well. These revenues support all of our operating expenses, plus the cost of any future capital improvements and repairs. (We cannot use existing taxes for these purposes—these may be only used to retire our bonds.) The water rate requirements were set in the public meeting held December 9, 2019.

The District's water source is the City of Lafayette. This is the fifth year of six years of five percent water rate increases from Lafayette. However, the District has felt confident that the budgetary needs of the District can be met without passing on the increased cost of water.

On the back of this letter, you will find the February 1 Water Rate Calculator for 2020.

Please feel free to contact any board member if you have any questions about the new rates.

Sincerely,

East Boulder County Water District Board of Directors

/s/ Mark A. Johns
